Infrastructure in Pakistan is seeing new avenues on daily basis. With multiple innovations happening across sectors and wiring being involved in almost all sectors, cable ducting becomes an essential investment in protecting wires across applications.

Introducing **DuraFlow Electric Conduit Pipe & Fittings**, made from 100% imported virgin material which provides long-term strength, chemical resistance and prevention of stress cracks.

Pipes are light-weight, gives excellent mechanical properties like high ring stiffness and better impact strength. The smooth inner wall facilitates easy insertion of ducts and cables.

These pipes are manufactured using ultra-modern hi-tech machines which results in excellent finished product manufactured as per standard BS-6099.

KEY FEATURES AND ADVANTAGES

Light-weight makes it easy to assemble and transport.

Smooth internal surface makes it easy to pull cables through the pine.

Optimum mechanical and physical properties.

Tough outer surface makes it easy to resist high impacts.

Low-maintenance and long-lasting.

Built-in space capacity for future expansion.

Reduces cable over cable damage.

APPLICATIONS

From power distribution to protecting cables from moisture and direct sunlight, **DuraFlow Electric Conduit Pipe & Fittings** serves multiple purposes depending upon where it is installed.
